Success Stories

TUSHAR CHAWLA

I had a complicated case and almost every other migration agent I had gone to couldn't help me and I had lost my hopes until I came across Sunaina from ACE Migration. The service recieved from ACE is something I've never come across anywhere else, they're always available on calls and take responsibility for your case which is the most important and what they promise is what they truly deliver. Thank you Sunaina and thank you ACE.

SWATI DHOL

I would highly recommend ACE Migrant for ant visa purpose. I had a very goodexperience with Robinbhai... They helped me a lot through my 491 visa and got grant recently. One good thing about Robinbhai is they always pick my phone and always reply to all messages whenever we get any questions. Thank you so much to ACE team for helping me out in my visa process.

PARTI RAI

The best Migrations consultants so far that I have worked with. Very professional. efficient, updated, and knows exactly what they are doing. I had my skill assessment successfully done through them. Ravi Shah was the focal person who handled my case. My case was a bit complicated as the first application wasn't successful (done through another person). but Ravi had it done so efficiently, that I can entrust any kind of migration related work to him in future.
